PROFILE

Cybersecurity Engineering postgraduate with an international academic background and experience supporting compliance-driven business operations. Skilled in Governance, Risk & Compliance (GRC), Identity & Access Management (IAM), security policies, documentation, risk assessment, and process improvement. Experienced in collaborating with cross-functional teams, maintaining regulatory compliance (PCI DSS, GDPR), and preparing operational documentation. Passionate about cybersecurity consulting, digital transformation, and helping organizations strengthen cyber resilience.

SKILLS

Cybersecurity: Governance, Risk & Compliance (GRC) | IAM | Security Policies | Risk Assessment | Threat Monitoring | Endpoint Security | Cloud Security Fundamentals | Data Privacy | PCI DSS | GDPR

Networking: TCP/IP | Routing & Switching | IP Addressing | VPN | IDS/IPS | Firewalls

Programming: SQL | Python (Beginner) | AI Fundamentals

Business Tools: Microsoft Excel | Microsoft PowerPoint | Microsoft Word | Power BI (if applicable)

Core Competencies: Governance, Risk & Compliance (GRC) | Information Security | Identity & Access Management (IAM) | Security Operations | Risk Assessment | Security Policies | PCI DSS | GDPR | Threat Monitoring | Incident Response | Stakeholder Communication | Technical Documentation | Process Improvement

PROFESSIONAL EXPERIENCE

Air Back Office - Transaction Processing

07/2025 – Present | Chennai, Tamil Nadu, India

Sutherland Global Services Pvt. Ltd.

- Process high-volume financial transactions while ensuring compliance with PCI DSS, GDPR, and airline security standards.
- Support secure transaction processing by maintaining data confidentiality, integrity, and access control.
- Collaborate with IT and internal stakeholders to identify operational risks and improve workflow efficiency.
- Conduct compliance reporting, documentation, and audit support activities.
- Investigate transaction discrepancies through structured problem-solving and root cause analysis.
- Support operational risk mitigation initiatives and process optimization.

Junior Client / Sales Consultant, Innovation Travel Solution (Now Dyninno)

11/2022 – 11/2023 | Riga, Latvia

- Managed end-to-end travel booking processes using Global Distribution Systems (GDS), ensuring accuracy and compliance with airline regulations.
- Handled transaction modifications, cancellations, and reissues with a focus on minimizing financial discrepancies.
- Maintained strict adherence to data protection and privacy regulations (GDPR) while handling customer information.
- Identified and resolved customer issues through structured analysis and problem-solving.
- Collaborated with cross-functional teams to ensure operational efficiency and service quality.
- Maintained detailed records of transactions and customer interactions for audit and compliance purposes.

PROJECTS

Cybersecurity Project, Secure V2X Communication using Blockchain

- Designed a blockchain-based authentication framework for Vehicle-to-Everything (V2X) communication.
- Conducted cyber threat analysis.
- Developed decentralized authentication mechanisms.
- Evaluated confidentiality, integrity, and availability improvements.
- Applied cybersecurity principles to smart transportation systems.

CERTIFICATES

Cybersecurity & Compliance

- Security Policies & Compliance
- Data Privacy & Protection
- Identity & Access Management (IAM)
- Threat Monitoring Fundamentals

Systems & Tools

- GDS / Reservation Systems
- CRM Tools
- SAP ERP Fundamentals

Data & Analysis

- SQL & Database Management
- Data Analysis & Pattern Recognition
- Data Governance & Quality Control

Cybersecurity & Risk Foundations

- Networking (IP Addressing, Routing & Switching)
- Endpoint Security (EDR, Patch Management)
- Firewall, IDS/IPS, VPN
- Cryptography
- Cloud Security & IAM
- Data Analytics & Machine Learning Fundamentals

EDUCATION

Master’s in Cybersecurity Engineering, Riga Technical University

2022 – 2024 | Riga, Latvia

Thesis: Developed a blockchain-based framework for secure V2X communication, focusing on data integrity, authentication, and threat mitigation.

Bachelor’s in Mechanical Engineering, Riga Technical University

2018 – 2022 | Riga, Latvia

Diploma Mechanical Engineering, Pallavan Polytechnical College

07/2013 – 04/2016 | Kanchipuram, India

10th Grade, St. John's International Residential School

06/2012 – 06/2013 | Chennai, India

ADDITIONAL STRENGTH

- Strong analytical and investigative mindset
- High attention to detail and ethical judgment
- Ability to work in fast-paced, deadline-driven environments
- Quick learner with adaptability to new domains and regulatory frameworks

INTERNATIONAL EXPOSURE

- Lived and studied in Latvia for over six years.
- Completed bachelor's and master's degrees at Riga Technical University.
- Worked in a multicultural environment serving international customers.
- Experience collaborating across diverse teams.
